CHEMICAL INDUSTRY BIBLIOGRAPHY

INCL. 1966 ADDITIONS

There is tabulated on the following pages, a series of technical reprints, application bulletins, methods bulletins and brochures available here from our technical library. We'll be happy to send any of these to you. Most of them are available to you for your permanent reference. Library copies will be sent to you for a ten day loan period; if you want to duplicate these for your own files, please do so.

C.W. Brabender precision instrumentation is best known by the challenges it meets in Research & Development laboratories and Processing Plants throughout the world. The successes achieved with "Table-Top Pilot Plant Testing" are demonstrated in these published findings and technical reports.

We are therefore pleased to share with you our open-file research reprints and technical papers, with the hope that they are of some help to you in your work.

Cordially yours,
C. W. BRABENDER INSTRUMENTS INC.

Walter T. Blake
Vice President & General Manager

DESCRIPTION

100. "Determination of the Molecular Weight of Thermoplastic Materials", with the C.W. Brabender PLASTI-CORDER.
101. "Application of the C.W. Brabender Plastograph to Resin-Plasticizer Dry Blend Formulation and Manufacturing".
102. "The Determination of the Gelling Capacity of Polyvinyl Chloride in the Temperature Range of 100-160°C by Means of the C.W. Brabender Plastograph", by Dr. Paul Schmidt of the Synthetic Resin Raw Material Section of the Technical Department of Chemische Werke Huels, G.m.b.H., Marl in the District of Recklinghausen, reprinted from KUNSTSTOFFE No. 5, 1952, Vol. 42, pages 142-148. **
103. "Method of Recording Plastic Properties of Porcelain Bodies", by L.E. Thiess, Porcelain Dept., General Electric Co., Schenectady, N.Y. (PLASTI-CORDER)
104. "Research for the Measurement of the Plasticity of Uncompressed Molding Sand" by Heinz Siegel, Koenigswinter, from "GIESSEREI" (Foundry), translated by Norman W. Severin, Alfred, N.Y. (PLASTI-CORDER)
105. "The Brabender Plastograph in the Rubber Laboratory", by A.E. Juve and D.C. Hay, B.F. Goodrich Co., presented/Div. of Rubber Chemistry, A.C.S., Cleveland, Ohio, 1947.
106. "The Plastic Behavior of Some Ceramic Clays", by Dr. R.R. West and Dr. W.G. Lawrence, Dept. of Ceramic Research, State University of New York College of Ceramics at Alfred University, Alfred, N.Y. (PLASTI-CORDER)
107. "A New Recording Viscometer for Paint Consistency Measurements", by C.R. Wicker and J.A. Geddes, Research Chemists, Pigments Dept., E.I. DuPont de Nemours & Co. (VISCO-CORDER)
108. "A Machine for Testing Highway Subgrade Soils", by E.O. Rhodes, Tech. Dir., Tar and Chemical Div., Koppers Co., Pittsburgh, Pa., 1938 (PLASTI-CORDER)
109. "Plastisols from Poly (Vinyl Chloride) and Their Processing", by R. Reichherzer, Plastics Institute, Vienna, Austria (PLASTI-CORDER)
110. "Processing Predictor" (Polymers), reprinted from PLASTICS WORLD, September, 1960 (PLASTI-CORDER)
111. "Improved Classification of Vinyl Resins", by Robert Braddicks, Jr., and Thomas Van Deren, Kentile, Inc., Brooklyn, N.Y., reprinted from SPE JOURNAL, October, 1960 (PLASTI-CORDER)
112. "The Relationship between the Consistency of the Green Electrode Mix and the Properties of Test Electrodes", by F.A. Smith and A.J. Lombardo, U.S. Steel Corp., Applied Research Lab., Monroeville, Pa., reprinted from papers presented/New York, N.Y., dated September 11-16, 1960, Vol II, American Chemical Society, Div. of Gas and Fuel Chemistry. (PLASTI-CORDER)
113. "Baker PL-11, A New Thermoplastic", by Joseph Briskin and Dr. C.H. Schramm, J.T. Baker Chem. Co., Phillipsburg, N.J. (PLASTI-CORDER)
114. "Measuring the Melt Flow of Polymers of Various Molecular Weights and Visco-Elastic Properties under Typical Processing Conditions", by Walter T. Blake, Vice President & General Mgr., C.W. Brabender Instruments Inc., S. Hackensack, N.J., presented/Div. of Industrial and Engineering Chemistry, 136th Nat'l. Meeting, A.C.S., September, 1959, Atlantic City, N.J.
115. "The Practical Application of the C.W. Brabender Plastograph in the Plastics and Rubber Industries", by Walter T. Blake, C.W. Brabender Instruments Inc., presented/ Rubber & Plastic Symposium, I.S.A., Akron, Ohio, October, 1958.
116. "Determining Molecular Weights of Thermoplastic Materials", by Walter T. Blake, C.W. Brabender Instruments Inc., published/ PLASTICS TECHNOLOGY, October, 1958 (PLASTI-CORDER)
117. "Rheological Measurements with the Brabender Plastograph", by Dr. C.C. McCabe, Elastomer Chemicals Dept., E.I. DuPont de Nemours & Co., presented/annual meeting of Society of Rheology, Lehigh University, Bethlehem, Pa., November, 1959.

ITEM NUMBERS

DESCRIPTION

**** *

118. "Effect of Temperature and Time on the Weight Loss of Leather", by Joseph R. Kanagy and Arbelia M. Charles, Nat'l. Bureau of Standards, Dept. of Commerce, Washington, D.C., excerpts reprinted from THE JOURNAL OF THE AMERICAN LEATHER CHEMISTS ASSOC. (MOISTURE TESTER)**
119. "Die Bestimmung der Gelierfaehigkeit von Polyvinylchlorid im Temperaturbereich von 100-160°C Mittels des Brabender Plastographen", by Dr. Paul Schmidt, Marl Krs. Recklinghausen. * ** (Determination of Gelation of PVC in the Range from 100-160°C, with the Brabender Plastograph)
120. "New Method for Determining the Gelling Properties of Plastisols, (33% PVC) Using the Brabender Plastograph (range 20-100°C) by Dr. Paul Schmidt, Translation of an article pub. in KUNSTSTOFFE, Vol. 41, No. 1, January, 1951 (Also discusses the use of the Brabender VISCO/amylo/GRAPH with plastisols of 5%-10% PVC) **
121. "The Determination of Plasticizer Volatility in PVC Compounds", by Dr. Lisa Roessig, Farbenfabriken Bayer, AG, Uerdingen, condensed translation from KUNSTSTOFFE Vol. 48, January, 1958 (MOISTURE TESTER)
122. Out of Print
123. "Determining the Stability of Low Molecular Weight PVC and Normal PVC with the Brabender Plastograph" by Brabender O.H.G., Duisburg, Rhineland, West Germany **
124. "Der Konditionier-Halbautomat-ein neues Geraet fuer die Textilindustrie", by K. Goehde, Fachzeitschrift, Gruenberg, Schles., October, 1940 (A Conditioner Moisture Tester-A New Instrument for the Textile Industry) (MOISTURE TESTER) * **
125. "Water Sorption of Low Opacity Pigments", by Stanley LeSota, National Lead Co., Philadelphia, Pa., reprinted from PAINT AND VARNISH PRODUCTION, Vol. 48, February, 1958 (PLASTI-CORDER)
126. "Fundamentals of Aging: A Comparison of the Mortality Curve for Humans with a Viscosity Curve of Gelation During the Cross-Linking Reaction", by Johan Bjorksten, Ph.D and Fred Andrews, Bjorksten Research Foundation, Madison, Wisc., reprinted from the JOURNAL OF THE AMERICAN GERIATRICS SOCIETY, Vol. VIII, No. 8, August, 1960 (PLASTI-CORDER) **
127. "Predicting Extruder Performance with Plasticized PVC", by Frank C. Schutz, Welding Engineers Inc., Norristown, Pa., reprinted from SPE JOURNAL, August, 1960 (PLASTI-CORDER)
128. "Weichmacher fuer Polyvinylchlorid", by Dr. Ing. R. Reichherzer, Plastics Institute, Vienna, Austria, 1955 (Plasticizers for Poly (Vinyl Chloride)) (PLASTI-CORDER) * **
129. "Neue Methoden zur Beurteilung der Verkokbarkeit von Kohlen", by H. Echterhoff, published/ERDOEL UND KOHLE, 8th Edition, 1955 (New Methods for the Determination of the Coking Properties of Coal) * **
130. "Ein neues Geraet zur Bestimmung des Erweichungsverhaltens von Steinkohlen bei der Verkokung", by Heinrich Echterhoff, Essen, published/GLUECKAUF (A New Instrument for the Determination of the Softening Behavior of Coal During the Coking Process)* **
131. "Versuche zum Geschmeidigkeitsnachweis fuer Baukalke", by W. Piepenburg, Koeln, published/ZEMENT-KALK-GIPS, February, 1952 (Tests to Ascertain the Surface Plasticity of Construction Lime) (PLASTI-CORDER) * **
132. "Ueber die Dispergierung von Pigmenten in Bindemitteln", by Dr. Franz Wirsching and Dr. Robert Haug, reprinted from DEUTSCHE FARBEN-ZEITSCHRIFT, October, 1957 (Dispersing of Pigments in Adhesives) (PLASTI-CORDER) * **
133. "Phthalsaereester als Weichmacher fuer Polyvinylchlorid", by Dr. R. Reichherzer, Kunststoffinstitut Wein, reprinted from MITTEILUNGEN DES CHEMISCHEN FORSCHUNGS-INSTITUTES DER WIRTSCHAFT OESTERREICHS, February, 1957 (Phthalic Acid Esters as Plasticizer for Polyvinylchloride) (PLASTI-CORDER) * **
134. "Mess-Registrier-und Regelvorgaenge in Materialfluss and Fertigung", by W. Bleichert, Darmstadt, reprinted from INDUSTRIE-ANZEIGER, Essen, November, 1956 (Measuring, Recording and Controlling Procedures in Material Flow and Production) (PLASTI-CORDER) * **

* German Text

** Library Copy-available/10 day loan

2

Editor's Note: The C.W. Brabender PLASTI-CORDER[®] is the new registered name and trade mark of the chemical industry's model of the time-proven Brabender Plastograph.

ITEM NUMBERS
**** *

DESCRIPTION

135. "Ueber die Methoden zur Bestimmung der Aktivitaet von Kautschuk Fuellstoffen", by Dr. J. Behre, Hamburg, reprinted from FORSCHUNG-CHEMIE-TECHNIK (Methods for Determining the Effect of Fillers in Rubber) (PLASTI-CORDER) * **
136. "Zur Kenntnis des Geliervorganges von Polyvinylchlorid mit Weichmachern", by A. Hartman and F. Glander, Kunststofflaboratorium, reprinted from KOLLOID-ZEITSCHRIFT, July, 1954 * ** (Information of the Gel Process of Poly (Vinyl Chloride) With Plasticizers) (PLASTI-CORDER)
137. "Recording Instrument for Following the Destructive Distillation of Solid Fuels", by H. Echterhoff, British Coke Research Association Intelligence Section (PLASTI-CORDER) **
138. "New Instrument for Determining the Softening Behavior of Bituminous Coals", by H. Echterhoff, British Coke Research Association Intelligence Section (PLASTI-CORDER) **
139. "Use of the C.W. Brabender Moisture Tester for Polystyrene Polymerization Control", Method MT-10, C.W. Brabender Instruments Inc., 1958 (MOISTURE TESTER)
140. "Equipment for Determining Moisture in Coal", by O.W. Rees and K.F. Burscak, Geochemical Section, Illinois State Geological Survey, Urbana, Ill. (MOISTURE TESTER)
141. "The Measurement of Processability in the Ceramic Industry", by Walter T. Blake, C.W. Brabender Instruments Inc., presented/American Ceramic Society, Toronto, Canada, April, 1961 (PLASTI-CORDER)
142. "Measuring Detergent Consistency", by Hans E. Tschakert, Chem. Werke Huels, A.G., Marl-Huels, Germany, presented/3rd Internat'l. Congress of Surface Activity, Cologne, Sept., 1960 (PLASTI-CORDER) * **
143. "Rapid Determination of Moisture in Electrode Coatings", by G. Haim, reprinted from WELDING, January, 1945 (MOISTURE TESTER) **
144. "Thermoplastic Flow Studies of Polyethylene of Various Melt Indices and Densities", based on a presentation to Sub-Committee III-D of A.S.T.M., D-20, September, 1959, Cleveland, Ohio, reporting correlation data between melt indices and Brabender units, Lab.Exp. # 21, (G.5-7 incl.) (PLASTI-CORDER) **
145. "Correlation chart on 13 Marvinol PVC Resins-specific viscosity by dilute solution vs. Brabender units in meter-kilograms, 1959 (Chart # 104) (PLASTI-CORDER) **
146. "Three correlation charts on three different Acrylic resins-spiral flow distance, A.S.T.M., Flow Temperature and melt index data vs. Brabender units. Lab.Exp. # 84, (G.8-10 incl.) (PLASTI-CORDER) **
147. "Polybutadiene Rubber", by Dr. E. F. Engel, Manager, Synthetic Rubber Research & Develop., Chemische Werke Huels, A.G., Marl., Kreis Recklinghausen, Germany, presented/2nd Internat'l. Synthetic Rubber Symposium, Westminster, London, October, 1960, reprinted from RUBBER AND PLASTICS AGE, 1961 (PLASTI-CORDER) **
148. "Viscosity Test Recorder for Laboratory or Production Use", reprint from INTERNATIONAL PLASTICS ENGINEERING, December, 1961 (PLASTI-CORDER)
149. "Measuring the Processability of Elastomers", by Walter T. Blake, Vice President & General Manager, C.W. Brabender Instruments Inc., S. Hackensack, N.J., presented/Los Angeles Rubber Group, October, 1961, reprint from RUBBER AGE, January, 1962 (PLASTI-CORDER)
150. "Die Bestimmung der Stabilitaet von niedermolekularem Polyvinylchlorid (K-Wert 65) und normalem Polyvinylchlorid (K-Wert 70) im Brabender Plastograph", by Brabender O.H.G., Duisburg, West Germany (Determination of the Stability of Low Molecular PVC (K-Value 65) and Normal PVC (K-Value 70) in Brabender Plastograph) * **
151. "Chemically-Cross-Linked Polyethylene for the Manufacture of Electric Cable Sheathing and the Protection of this Material Against Atmospheric Oxygen", by J. Lacombe and W. Wrobel, Societ des Trefileries et Laminiers du Havre, translation and reprint from REVUE GENERALE DU CAOUTCHOUC, October, 1961 (PLASTI-CORDER) * **

* German Text

** Library Copy-available/10 day loan

INDEX NUMBERS

DESCRIPTION

152. "Comparison of Spiral-Cavity Mold Flow with Laboratory Scale Flow Tests on Thermoplastics", by J.J. Gouza and G.G. Freygang, Rohm & Haas Co., Bristol, Pa., reprint from SPE JOURNAL, November, 1961 (PLASTI-CORDER) **
153. "Testing Joint Treatment Materials for Gypsum Wallboard Construction", A.S.T.M. Designation: D-474-61-T, 1961 Book of A.S.T.M. Standards, also available from the American Society for Testing and Materials, 1916 Race St., Philadelphia 3, Pa. (VISCO-CORDER) **
154. "Measuring the Plastic Properties of Clays", by H.G. Schurecht, Monthly Progress Report, New York State College of Ceramics, Alfred, N.Y., December, 1941 (PLASTI-CORDER) **
155. "The Use of the Brabender Plastograph to Measure Workability and Plasticity of Clay and to Determine the Power Necessary to Temper Clay Bodies", Thesis by John S. Angevine and Romer V. Volk, New York State College of Ceramics, Alfred, N.Y., June, 1942 (PLASTI-CORDER)**
156. "An Investigation of the Uses of the Brabender Plastograph in the Ceramic Industries", Thesis by Marvin G. Britton, New York State College of Ceramics, Alfred, N.Y., May, 1943 (PLASTI-CORDER) **
157. "A New Concept of Clay Plasticity", Thesis by Claude L. Marshall, New York State College of Ceramics, Alfred, New York, May, 1954 (PLASTI-CORDER) **
158. "Control of Plasticity", Thesis by Richard A. Phillips and William O. Dick, Jr., New York State College of Ceramics, Alfred, N.Y., May, 1955 (PLASTI-CORDER) **
159. "Control of Plasticity", Thesis by George R. Norton, New York State College of Ceramics, Alfred, N.Y., May, 1956 (PLASTI-CORDER) **
160. "Plastizitätsmessungen an Pastenfoermigen Waschmitteln", by Dr. Hans E. Tschakert., Sonderdruck aus SEIFEN, OELE, FETTE, WACHSE, No. 15, July 19, 1961 (Plasticity Measurement of Pasty Detergents) (PLASTI-CORDER) * **
161. "Rheologische Messungen von Waschrohstoff-Kombinationen und Erkennung einzelner Komponenten durch die Plastizitäts-Messmethode mit dem Brabender Plastographen", by Dr. Hans E. Tschakert, Sonderdruck aus FETTE, SEIFEN, ANSTRICHMITTEL, December, 1961 (Rheological Measurement of Detergent Basic Mixtures and Analysis of Components through the Plasticity Measurement with the Brabender Plastograph) (PLASTI-CORDER) * **
162. "Rheological Measurements with the Brabender Plastograph", by Dr. C.C. McCabe, Elastomer Chemicals Dept., E.I. DuPont de Nemours & Co., Inc., reprint from CHEMISTRY IN CANADA, October, 1960 **
163. "How to Extrude Plastisols", by C.H. Brower and B.H. Maddock, Union Carbide Plastics Co., reprint from MODERN PLASTICS, October, 1960 (PLASTI-CORDER) **
164. "Method of Test-polyethylene, Using the C.W. Brabender Plasti-Corder"-copy of an unofficial method now being investigated for suitability and reproducibility by Task Group # 5, Subcommittee D-20 for Plastics, A.S.T.M.
165. "Low Temperature Condensation Process for Producing More Highly Cross Linked Alkyd Diisocyanate Foams", by Dr. H. R. Moore, Control and Guidance Div., U.S. Naval Air Development Center, Johnsville, Pa., 1956 (PLASTI-CORDER) **
166. "Stabilizing Plasticizer-Epoxol 9-5" by Swift & Co., 1962 (PLASTI-CORDER) **
167. "The Use of the Brabender Plastograph in Studying the Rheology of Electrode Mixes", by T.F. Eckle, A.T. Elenice and F.A. Smith, U.S. Steel Corp., Applied Research Lab., Monroeville, Pa., presented/Div. of Fuel Chemistry, A.C.S., Atlantic City, N.J. (PLASTI-CORDER)
168. "The Plastic Behavior of Some Clays", by Dr. Richard West, New York State College of Ceramics, Alfred, N.Y., presented/Clay Symposium, 1962 (PLASTI-CORDER) **
169. "How to Produce Better Whiteware with High Intensity Clay Dispersion", by R.E. Gould and J.F. Lux, Buffalo China Inc., and R.R. West and L.B. Coffin, New York State College of Ceramics, Alfred, N.Y., reprint from CERAMIC INDUSTRY, September, 1958 (PLASTI-CORDER) **

DESCRIPTION

170. "Transaction and Communications, Oil Absorption: A New Assessment, Part II", by E. Mardsen, reprint from JOURNAL OF OIL AND COLOUR CHEMISTS ASSOC., February, 1959 (PLASTI-CORDER)
171. "A Common Denominator in Aging Research", by Johan Bjorksten, Bjorksten Research Foundation, Houston, Texas, reprint from TEXAS REPORTS ON BIOLOGY AND MEDICINE, Fall, 1960 (PLASTI-CORDER) **
172. "The Thermal Stress on PVC Compounds in a Single Screw Extruder", by Gerhard Biedenkopf, Troisdorf, reprint from INDUSTRIE-ANZEIGER, No. 82, 1962 **
173. "Determination of Plasticizability and Stability of Poly (Vinyl Chloride) by Means of Plastograph, reprint from JOURNAL OF THE SOCIETY OF RUBBER INDUSTRY (Japanese Text), Japan, 1962 English abstract included. (PLASTI-CORDER) **
174. Out of Print
175. "Flow Measurement and Product Quality", by Walter T. Blake, C.W. Brabender Instruments Inc., S. Hackensac, N.J., reprint from PLASTICS WORLD, March, 1963 (PLASTI-CORDER)
176. "Brabender Plastograph: A Study of its Utility for Testing and Development of Plastic Materials", reprint of an intra-company laboratory report (company identification removed) 1958 (Chart 102) (PLASTI-CORDER)
177. "Measurement of the Stability of Poly (Vinyl Chloride) Using the C.W. Brabender Plastograph", by J.W. Watts, Louisiana Div., Dow Chemical Co., presented/R.E.T.E.C., Philadelphia Section, S.P.E., 1963 **
178. "The Influence of Resin on Plastisol Fusion", by Alfred J. Heinrichs, Naugatuck Chemical Div., Naugatuck, Conn., presented/ R.E.T.E.C., Phila. Section S.P.E., 1963 (PLASTI-CORDER)
179. "Das Kleben von Wellpappe", by Svenska Cellulosa Aktiebolaget Kemiska Produkter, Sundsvall, Sweden (The Glue of Corrugated Paper) (VISCO/amylo/GRAPH) **
180. "Synthetic Polyisoprene-What Does it Offer?" by R.V. Todd, Goodyear Tire & Rubber Co., Akron, Ohio, presented/Rhode Island Rubber Group, 1963 (PLASTI-CORDER) **
181. "Lubricants in Vinyl Processing", by Leonard I. Nass, Mgr., Plastics Tech. Service Dept., Advance Div., Carlisle Chemical Works, Inc., New Brunswick, N.J., presented/S.P.E., East N.E. Section, 1963 **
182. "Cabot Corporation Presents a New Automatic Carbon Black Oil Absorption Method" released at Rubber Div., A.C.S., Toronto, 1963 **
183. "Vulcanization of an Ethylene Propylene Diene Elastomer", by I.D. Roche, Elastomer Chem. Dept., I.E. DuPont de Nemours, Wilmington, Del., presented/ A.C.S., Cleveland, Ohio, 1962**
184. "Effect of Formulating Ingredients and Processing Temperatures Upon Cast Vinyl Foams", by Russel A. Park, Firestone Plastics Co., Pottstown, Pa., presented/Cellular Div., S.P.I., 1963
185. "Effect of Ingredients and Temperature on Cast Vinyl Foam Cell Structure", by Russel A. Park, Firestone Plastics Co., Pottstown, Pa., published/RUBBER AGE, October, 1963 **
186. "The Dispersed Pigment Problem", by Vernon G. Ammons, Chemist Research Center, Pittsburgh Plate Glass Co., Harmar Township, Pa., published/INDUSTRIAL & ENGINEERING CHEMISTRY, April, 1963 (PLASTI-CORDER) **
187. "Evaluating Performance Characteristics of Mechanical Mixing Processes: the Dextrose Kaolinite-Water System", by Michaels and Puzinauskas, M.I.T., published/CHEMICAL ENGINEERING PROGRESS, December, 1954 (PLASTI-CORDER) **
188. "New Instrumental Carbon Black Oil Absorption Method", by Sljaka, Opie and Cole, R & D, Cabot Corp., Cambridge, Mass., presented/Rubber Div., A.C.S., 1963 (PLASTI-CORDER) **
189. "Carbon Black Polymer Interaction: A Measure of Reinforcement Potential", by J.J. Brennan, Cabot Corp., Cambridge, Mass., presented/Rubber Div., A.C.S., 1963 (PLASTI-CORDER) **

200. "Ethylene-Propylene Rubber for Wire and Cable Insulation", by W.C. Smith, W.F. Fischer and N.F. Newman, Enjay Laboratories, Linden, N.J., published/RUBBER WORLD, March, 1964 (PLASTI-CORDER) **
201. "Processability Factors of Polyolefins as Determined on the Brabender Plastograph", by J.T. Ryan, presented as partial fulfillment of the Master's Degree, Newark College of Engineering, Newark, N.J., June, 1962 **
202. "C.W. Brabender Chemical Catalog"-illustrations, technical details, specifications and quotations on C.W. Brabender instrumentation for the Chemical Industry.
203. "Cabot Oil Absorptometer-An Approach to Automatic Oil Absorption", by V.Sljaka, H.Cole, W. Opie, D. Petterson and J. Young, Cabot Corp., Cambridge, Mass., 1964 (CABOT-BRABENDER OIL ABSORPTOMETER) **
204. "Untersuchungen am System Polyvinylchlorid und Weichmacher mit Verbessertem Brabender Viskografen", by Dr. K. Thinius, Dr. W. Reicherdt and B. Hosselbarth, Institute fuer Chemische Technologie der Plaste, Leipzig, 1963 (Tests on Poly (Vinyl Chloride) and Plasticizers with the Improved Brabender Viscograph) (VISCO/amylo/GRAPH) ** *
205. "Summary of Properties of Chemically Cross-Linked Polyethylene for Manufacturing Electric Cable Insulations and Protecting this Material Against the Deteriorating Action of the Oxygen in the Atmosphere", by J. Lacombe and W. Wrobel, published/WIRE AND WIRE PRODUCTS, April-May, 1963 (PLASTI-CORDER) **
206. "Determination of the Stability of Poly (Vinyl Chloride)-Plasticizer Mixtures with Stabilizers", Brabender O.H.G., Duisburg, West/Germany (PLASTI-CORDER) * **

* German Text

** Library Copy-available/10 day ban

ITEM NUMBERS
**** *

DESCRIPTION

207. "Moisture Determination of Paper" by Erich L. Salach, published/FORM UND TECHNIK, October, 1955 (MOISTURE TESTER) **
208. "Preliminary Information About Process While Drying of Leather", by H. Freudenberg, published/ DAS LEDER, 1957 (MOISTURE TESTER) ** *
209. "An Instrument for Printing Inks", published/Meliand Textiles Report, Heidelberg, West Germany, 1940 (VISCO/amylo/GRAPH) ** *
210. "The Need for Quality Control in the Plastics Industry", by Harry J. DuBois, Tech-Art Plastics, Morristown, New Jersey, reprint from PLASTICS WORLD, July, 1964 (PLASTI-CORDER)
211. "Fusion Rate of Plasticizers", by H. J. Seppala, J. R. Darby, Monsanto Company, reprint from PLASTICS TECHNOLOGY, July, 1964 (PLASTI-CORDER)
212. "The Role of Hoechst Waxes in PVC Fabrication", technical bulletin by the Hostawax Co., Mountainside, New Jersey, July, 1964 (PLASTI-CORDER)
213. "Effect of Stearate Processing Aids Upon Polypropylene Stability", by C. W. Russell, Bell Laboratories, Murray Hill, New Jersey, reprint from SPE Reprints-meeting of Baltimore-Washington Section, June 4-5, 1964 (PLASTI-CORDER)
214. "Some Aspects of the Plastic and Related Properties of Queenston Shales", by K. E. Bell, Dept. of Mines & Mineral Surveys, Ottawa, Canada, published/CANADIAN CERAMIC SOCIETY JOURNAL, Vol. 31, 1962 (PLASTI-CORDER) **
215. "Processability of Oil-Extended SBR", by A. Meder and W. May, Shell Chemical Co., Netherlands, published/BRITISH RUBBER JOURNAL, June, 1964 (PLASTI-CORDER) **
216. "Exon 605-Firestone Vinyl Resin", technical bulletin on plastisols from Firestone Plastics Company, Pottstown, Pennsylvania, August, 1964 (PLASTI-CORDER)
217. "Extenders for Ethylene-Propylene Rubbers", by R. M. White, Golden Bear Oil Company, Bakersfield, California, reprint from RUBBER AGE, March, 1964 (PLASTI-CORDER)
218. "The Methanics and Testing of Plastisol Gelation and Fusion", by J. A. Greenhoe, Monsanto Chemical Company, Plastics Division, reprinted SPE JOURNAL, December, 1961 (PLASTI-CORDER) **
219. "Mistron Vapor Reinforcement of Enjay 3509 Ethylene-Propylene Terpolymer", technical bulletin from Sierra Talc Company, Pasadena, California, published, February, 1964 (PLASTI-CORDER)
220. "Neoprene GT", by J. F. Hagman, DuPont, Wilmington, Delaware, June, 1964 (PLASTI-CORDER)
221. "The Evaluation of Peroxides as Crosslinking Agents for High Density Polyethylene", by R. S. Gregorian and F. A. Bafford, Koppers Company, Monroeville, Pennsylvania, presented/ACS 148th Meeting, Chicago, Illinois, August 30-September 4, 1964 (PLASTI-CORDER) **
222. "Predicting the Processability of Plastics", by Walter T. Blake, Vice President & General Manager, C. W. Brabender Instruments, Inc., South Hackensack, New Jersey, reprinted from paper presented/1964 meeting of the Materials Division of the American Ordnance Association, Plastics Section, Dayton, Ohio, September 23-24, 1964 (PLASTI-CORDER)
223. "Methods of Predicting the Processing Characteristics of Rubber and Plastics", by Andrew D. Varenelli, Naugatuck Chemical Division, U. S. Rubber Company, Naugatuck, Connecticut, published/WIRE AND WIRE PRODUCTS, October, 1964 (PLASTI-CORDER) **

* German Text

** Library Copy-available/10 day loan

Editor's Note: The C. W. Brabender PLASTI-CORDER[®] is the new registered name and trademark of the chemical industry's model of the time-proven Brabender Plastograph.

ITEM NUMBERS

**** *

DESCRIPTION

224. "Measurement of Relative Molecular Weight of Polyvinyl Chloride by Means of the Brabender Plastograph", Report on the Brabender Plasti-Corder, August, 1958 intra-company report, not identified
225. "Evaluation of the Fusion Rates of Rigid PVC Compounds Using the Brabender Plastograph" by A. C. Hecker and Seymour Cohen, Argus Chemical Co., Brooklyn, New York, presented/SPE Tech. Conference, Montreal, Canada, October, 1964 (PLASTI-CORDER) **
226. "Antistatic Properties for Plastics at Less Cost" report in What's New in Chemical Processing Equipment, November, 1964 (PLASTI-CORDER) **
227. "Rigid Dry Blend and its Extrusion" by W. A. Rabb and T. A. Ratkey, Shawinigan Chemical Co., Quebec, Canada, presented/SPE Tech. Conference, Montreal, Canada, October, 1964 (PLASTI-CORDER) **
228. "United States Patent Office - Patent # 3,149,093 - Record of Exclusive Rights to Stabilizing Polypropylene Compounds" - Patent Granted. Patent Information Based on Studies Using the C. W. Brabender PLASTI-CORDER for Tests and Procedures. Patent Rights Granted September 15, 1964, Argus Chemical Co., Brooklyn, New York **
229. "An Outline of Requirements for Processing and Extrusions of Dry Blends" unidentified company report on the use of the C. W. Brabender PLASTI-CORDER in resin-plasticizer formulations. **
230. "Mistron Vapor Pigmentation of Polyvinyl Chloride", Bulletin 1-Plastics from Sierra Talc Co., South Padasena, California, January 20, 1965 (PLASTI-CORDER) **
231. "Thermal Processing Stability of Vinyl Chloride Plastics", by J. B. De Coste, Bell Laboratories, Murray Hill, New Jersey, presented/SPE ANTEC meeting, Boston, Mass., March, 1965 (PLASTI-CORDER) **
232. "The Prediction of ABS Extruded Sheet Surface Quality by Rheometer Behavior", by E. Paul Weaver, Naugatuck Chemical, Div. U. S. Rubber, Naugatuck, Conn., presented/SPE ANTEC meeting, Boston, Mass., March, 1965 (PLASTI-CORDER) **
233. "Correlation of Some Processing Characteristics of Commercial Polyvinyl Chloride Polymers with Composition Variables, the Glass Transition Temperature and Solution Viscosity", by Paul V. McKinney, Armstrong Cork Co., Lancaster, Pennsylvania, presented/SPE ANTEC meeting, Boston, Mass., March, 1965 (PLASTI-CORDER) **
234. "Chlorinated Polyethylene as a Modifier for Plasticized PVC Compounds", by R. R. Merkel and A. H. Searl, Allied Chemical Co., Morristown, New Jersey, presented/SPE ANTEC meeting, Boston, Mass., March, 1965 (PLASTI-CORDER) **
235. "The Effect of Diluents Upon Stir-in Organosol Compound Rheological and Fusing Characteristics", by John M. Ogorzalek, Firestone Plastics Co., Pottstown, Pa., presented/SPE ANTEC meeting, Boston, Mass., March, 1965 (PLASTI-CORDER) **

ITEM NUMBERS

DESCRIPTION

236. "Automatic Oil Absorption Analyses - the Cabot Absorptometer", by V. A. Sljaka, H. M. Cole, W. H. Ople, D. L. Petterson and J. W. Young, Jr., Cabot Corp., Cambridge, Mass., company report, presented/ACS, Div. Rubber Chemistry, New York, September, 1963 (CABOT/BRABENDER CARBON BLACK ABSORPTOMETER) **
237. "Carbon Black Structure - Measurements and Rubber Processing", by E. R. Eaton and J. S. Middleton, Cabot Corp., Cambridge, Mass., published/RUBBER WORLD, June, 1965 (CABOT/BRABENDER CARBON BLACK ABSORPTOMETER)
238. "Carbon Black Behavior in Solution Polymer SBR Versus Emulsion Polymer SBR", by Fred W. Barlow, United Carbon Co., Akron, Ohio, presented/ACS, Div. of Rubber Chemistry, Miami, Fla., May, 1965 (PLASTI-CORDER) **
239. "Process Control and Inspection Tests For SBR Polymers", by C. E. Tidd, Western Electric Co., Baltimore, Md., published/RUBBER WORLD, October, 1965 (PLASTI-CORDER) **
240. "Uncommon Common Market Resins", by Arthur C. Hecker, Argus Chemical Corp., presented/SPE Palisades Section, March, 1965 (PLASTI-CORDER) **
241. "Vinyls in Protective Coatings", by Russell A. Park, Firestone Plastics Co., Pottstown, Pa., published/PAINT AND VARNISH PRODUCTION, July, 1965 (PLASTI-CORDER)
242. "Behavior of cis-Polybutadiene During Mastication", by Gerard Kraus and K. W. Rollmann, published/RUBBER CHEMISTRY AND TECHNOLOGY, September, 1965 (PLASTI-CORDER) **
243. "Methods of Determining Activity of Rubber Fillers", by Dr. J. Behre, Hamburg, published/FORSCHUNG-CHEMIE-TECHNIK, Volume 8, 1948 (Early Studies Using the Brabender Plastograph) (PLASTI-CORDER) *
244. "Studies on Stauffer Chemical Co. Stabilizers A-1176 and A-922", Stauffer Chemical Co., Chauncy, N.Y., Product Data Sheets (PLASTI-CORDER)
245. "Studies of PVC Stabilizers", Gerhard Schenkel, Stuttgart, published/KUNSTOFFE, Issue 7, 1965 (PLASTI-CORDER) *
246. "Epichlorohydrin Elastomers - a New Class of Specialty Rubber", by W. D. Willis, L. O. Amberg, A. E. Robinson and E. J. Vandenberg, Hercules Research Center, Wilmington, Del., published/RUBBER WORLD, October, 1965 (PLASTI-CORDER) **
247. "Discovering the Keys to Processing Better Rubber Compounds With the C. W. Brabender Plasti-Corder", R. J. Onufer, C. W. Brabender Instruments, Inc., presented/Chicago Rubber Group, October, 1965 (PLASTI-CORDER)
248. "The Characterization of Rubber Processing Compounds", by W. E. Claxton and F. S. Conant, Firestone Tire & Rubber Co., Akron, Ohio, published/RUBBER AGE, October, 1965 (PLASTI-CORDER) **
249. "PVC Blow Molding - Performance and Economics", by Roy G. Pearson, Owens-Illinois, Inc., Toledo, Ohio, presented/SPE RETEC, New York, November, 1965 (PLASTI-CORDER) **
250. "Internally Plasticized Ether Copolymer Resins for Injection and Blow Molding", by Shigeto Ohtsuka, Shinsuke Yoshikawa and Yuji Hoshi, Kureha Chemical Industry Co., Tokyo, Japan, presented/SPE RETEC, New York, November, 1965 (PLASTI-CORDER) **
251. "Measuring the Fusion Rate of Rigid PVC Dry Blend", by G. Schramm, Brabender OHG, Duisburg, West Germany, published/International Plastics Engineering, December, 1965 (PLASTI-CORDER)
252. "Plastisol Gelation, A New Instrument and Formulating Technique", by W. H. Bauer, Union Carbide Chemicals Company, published/SPE Journal, February, 1961 (VISCO-CORDER) **
253. "Extrusion of Peroxide-Containing Polyethylene", by J. Benning, W. R. Grace & Co., published/SPE Journal, September, 1965 (PLASTI-CORDER) **
254. "Collagen Article and the Manufacturing Thereof", United States Patent #2,919,999, January 5, 1960, Ethicon Inc., New Jersey (PLASTI-CORDER) **
255. "The Extrusion of Royalene for Industrial Articles", by J. M. Mitchell, U.S. Rubber Co., Naugatuck, Connecticut, published (French text)/General Review of Rubber and Plastics, September, 1965 (PLASTI-CORDER) **
256. "A Rheological Interpretation of Torque Rheometer Data", by Judson E. Goodrich and Roger S. Porter, Chevron Research Company, Richmond, California, presented/ACS meeting, Phoenix, Arizona, January, 1966 (PLASTI-CORDER) **

* German Text

** Library Copy - available/10 day loan

ITEM NUMBERS
**** *

DESCRIPTION

257. "Use of a Torque Rheometer for Study of Flow and Cure of Thermosets" by D. L. Kerr and A. J. Dontje, Rogers Corp., Rogers, Conn., presented/SPE ANTEC, Montreal, Canada, March 7 - 10, 1966 (PLASTI-CORDER)
258. "Evaluation and Comparison of Heat Stability Tests Using an Oven Mill, Press and Brabender Plastograph" by Seymour Cohen, Argus Chemical Corp., Brooklyn, N.Y., presented/SPE ANTEC, Montreal, Canada, March 7 - 10, 1966 (PLASTI-CORDER) **
259. "A Critical Examination of Test Procedures" by C. A. Brighton, G. H. Burke and G. C. Portingell, British Geon, Ltd., Glamorgan, G.B., presented/SPE ANTEC, Montreal, Canada, March 7 - 10, 1966 (PLASTI-CORDER) **
260. "How to Use a Torque Rheometer to Solve Processing Problems" by A. O. Schmitz, C. W. Brabender Instruments, Inc., South Hackensack, N.J., published/Plastics Technology, March, 1966 (PLASTI-CORDER)
261. "Dry Blending of Free-Flowing Elastomeric Powders" by A. Corry, D. Renner and A. Shiffler, U. S. Stoneware Co., Stow, Ohio, published/SPE Journal, February, 1966 (PLASTI-CORDER) **
262. "The Extrudability of Low Density Polyethylene" by M. Watanabe and T. Ichiba, Sumitomo Electric Industries, Inc., Osaka, Japan, published/Sumitomo Electric Technical Review July, 1965 (PLASTI-CORDER) **
263. "The Adaptation of the Brabender Plastograph in a Vinyl Processing Plant" by Lionel Bolduc, Hampshire Mfg. Co., Nashua, N.H., published/VIPAG SPE Newsletter, March 31, 1966 (presented/Eastern New England Section, SPE, November 23, 1965) (PLASTI-CORDER) **
